Building Brighter Futures Fund (2018-2026)

Feedback from participants and partners:

Modern Apprentice (Hospitality): “[My apprenticeship] resulted in me being a lot more confident behind the bar where I can interact with customers and provide a professional, efficient service.”

Parent: “A safe space for him where he feels comfortable within the small group and really enjoys the activities... It is the one thing each week that [he] looks forward to.”

McLaren High School: “CYP has provided incredible support to some of our most vulnerable young people for a number of years... CYP is accommodating, inherently flexible, creative and inclusive in what they offer and the close partnership working that has formed in the last few years has made a genuine difference.”

Young Person: “I like the garden there. I like telling people my stories. There are people there I can rely on.”

Parent: “The positive impact the project has had on my son, who is on the autistic spectrum... an invaluable opportunity to build his self-esteem and develop improved social interaction within his local community.”

Modern Apprentice (Hospitality): “I did not expect to get so many different qualifications [...] and skills from the job.”
